PROFESSIONAL SUMMARY

I am a full stack developer with 2+ years of experience in the industry. Skilled in web development, I am dedicated to delivering efficient solutions and maintaining high-quality products. I am always eager to learn and master new technologies to enhance my skills.

WORK HISTORY

Cooperative Computing - **Software Engineer**
Karachi, Pakistan
02/2021 - Current

- Utilized Laravel and Nest.js to create secure and scalable backend systems that handled complex business logic and processed large amounts of data
- Leveraged React, Next.js, and Nuxt.js to create responsive, fast-loading, and SEO-friendly frontend applications that delivered a seamless user experience
- Designed and implemented RESTful APIs that enabled seamless communication between the frontend and backend of each application
- Implemented code quality standards to maintain consistency across projects
- Used Git for version control and collaboration with the team
- Collaborated with clients to gather requirements and provide solutions
- Troubleshot and debugged application issues to ensure smooth functioning.

Coretech - **Web Developer**
Karachi, Pakistan
06/2020 - 02/2021

- Developed and maintained multiple WordPress-based eCommerce and informational websites, delivering high- quality products that met or exceeded client expectations
- Managed all aspects of the websites, ensuring that they were up-to-date, secure, and optimized for performance
- Collaborated closely with clients and other team members to gather requirements, develop project plans, and deliver projects on time and within budget.
